

How to download Library eBooks and audiobooks to an iPad, iPod, or iPhone

How borrowing Library eBooks and audiobooks works:

- eBooks and downloadable audiobooks circulate like any other library materials. The Library owns a copy of each title.
- If a title is checked out, it will say '**Request this Item**'. You can place a request on it and be notified by email when the title is available to be checked out and downloaded.
- If a title is available it will say '**Add to Cart**'. You can check out these titles right away.
- You have a choice to check out an eBook for either 14 or 21 days. eBooks automatically expire after the lending period is complete.
- If you prefer, you can return eBooks earlier than the due date.
- You may have **5** downloadable books (eBooks and audio books) checked out at a time, and **5** requests pending at a time.
